

PROJECT PROFILE

OWL CDP

Client: XTO ENERGY | Location: WEST TEXAS

Opero Energy supplied two (2) 25,000 bbl/day crude oil stabilizers for XTO Energy Owl's 100,000 bbl/day central delivery plant in West Texas. The project included stabilizer engineering, design, fabrication, and transportation. Opero Energy also provided stabilizer commissioning support to ensure a successful facility startup.

Project Overview

- Two (2) 25,000 bbl/day Crude Oil Stabilizers

Scope of Work

- Engineering & Design
- Fabrication
- Testing
- Commissioning Support
