

# PROJECT PROFILE

## COWBOY CONDENSATE STABILIZER

**Client: XTO ENERGY | Location: NEW MEXICO**

Opero Energy supplied a 25,000 BBL/D two-tower condensate stabilizer for XTO Energy's Cowboy CDP facility located in New Mexico. Opero Energy's scope of work included stabilizer engineering, design, and fabrication. Opero Energy also supported the commissioning and startup of the project.

### Project Overview

- 25,000 BBL/D Condensate Stabilizer
- Two Tower Stabilizer Design
- Modular Fabrication

### Scope of Work

- Engineering
- Detailed Design
- Fabrication & Testing
- Commissioning Support
